

# ATTACHMENT D

## Manure/Process Wastewater Tracking Manifest For Existing Milk Cow Dairies

### Instructions:

- 1) Complete one manifest for each hauling event, for each destination. A hauling event may last for several days, as long as the manure is being hauled to the same destination.
- 2) If there are multiple destinations, **complete a separate form for each destination.**
- 3) The operator must obtain the signature of the hauler upon completion of each manure-hauling event.
- 4) The operator shall submit copies of manure/process wastewater tracking manifest(s) with the Annual Monitoring Report for Existing Milk Cow Dairies.

|                                                                                                                                                                                                                                                |                          |                       |                       |                          |

| Enter the amount of manure hauled in tons or cubic yards (indicate the units used), the manure solids content (if amount reported in tons) or manure density (if amount reported in cubic yards), and the method used to calculate the amount: |                          |                       |                       |                          |
| Manure: <u>1050</u> <u>(Tons)</u> or Cubic Yards (indicate which units used)                                                                                                                                                                   |                          |                       |                       |                          |
| Manure Solids Content (if amount reported in tons): <u>@ 71.9%</u>                                                                                                                                                                             |                          |                       |                       |                          |
| Manure Density (if amount reported in cubic yards):                                                                                                                                                                                            |                          |                       |                       |                          |

Attachment D  
Waste Discharge Requirements General Order No. R5-2007-0035  
Existing Milk Cow Dairies

D-2

Method used to determine amount of manure: @ 12 tons per  
load

Enter the amount of process wastewater hauled in gallons and the method used to determine the amount.

Process Wastewater: \_\_\_\_\_ Gallons

Method used to determine volume of process wastewater: \_\_\_\_\_

**Written Agreement:**

Does the Operator have a written agreement (in compliance with Land Application Specification C.2 of Waste Discharge Requirements General Order No. R5-2007-0035) with any party that receives process wastewater from the Operator for its own use? (please check one)

☒ Yes ☐ No

If the answer is no, the Operator agrees to have such a written agreement with any such party for any process wastewater transferred after 31 December 2007 to such party.  
\_\_\_\_\_ (Operator shall provide initials here to acknowledge this requirement).

**Certification:**

I declare under the penalty of law that I personally examined and am familiar with the information submitted in this document, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of a fine and imprisonment for knowing violations.
